

SXR6000: SIX TONNE ROTARY TIPPING DUMPER

Capacities:		Engine type:		
Payload capacity – tonnes	6	lveco N45MSSX00 74kW @ 230	0rpm	4485cc
Liquid capacity — ltr	1687			
Struck capacity – Itr	2052	Transmission:		
Heaped capacity – Itr	3133	Powershuttle transmission, 4 speeds forward and reverse		
		with torque converter. Heavy duty drive train.		
Dimensions:				
A = overall length - mm	4442	Axles and brakes:		
B = overall height - ROPS up - mm	3130	Heavy duty double reduction axles with totally enclosed oil		
C = overall height - ROPS down - mm	2100	immersed disc brake. Transmission parking brake (front only)		
D = overall height - skip tipped - mm	3561			
E = prow height - mm	1675	Wheels and tyres:		
F = tipped prow height - mm	1220	405/70 - 20		14 ply
G = side loading height - mm	1770			
H = wheel base - mm	2400	Tank capacities:		
I = ground clearance - mm	320	68 ltr fuel tank	40 ltr hydraulic tank	
Overall width – mm	2375			
Width over tyres – mm	2230	Road speed mph/kph:		
Outer turning circle – metres	12.5	1st gear:	3.2	5.2
		2nd gear:	5.3	8.4
Weight:		3rd gear:	9.9	15.8
Unladen weight – kg (with ROPS and full tanks)	4710	4th gear:	17.9	28.7
