- (1) The metric equivalent of working height adds 2 m to platform height. US adds 6 ft to platform height. (2) Based on RT tires; deduct 2 in/5.8 cm for turf and non-marking tires.
- (3) Gradeability applies to driving on slopes and may vary depending on options and machine configurations. See operator's manual for details regarding slope ratings.
 (4) Weight refers to standard configuration and may vary depending on options and/or country standards.
- (5) Floor loading information is approximate and may vary depending on options and machine configurations. It should be used only with adequate safety factors.
